

SUPPLIERS IN ACTION

Representing more than 2,000 companies in 46 states in 279 congressional districts, last year ACIBC members were very active in telling the Coalition's story. ACIBC members held congressional facility tours, participated in the Aircraft Carrier Town USA contest, wrote to their Members of Congress, and spoke to the media about the importance of the U.S. Navy aircraft carrier program to their businesses, employees, and local economies. Here are some highlights.

ENGAGING WITH MEMBERS OF CONGRESS

Rep. Adam Smith @RepAdamSmith

Local businesses like Custom Hydraulic and Machine Company are economic drivers for our entire region. The jobs they create fuel the Puget Sound economy and help ensure we remain competitive on both a national and global scale.

Not only is Fox Valley Metal-Tech a vital supplier to the @USNavy but the company provides 140+ high-skill jobs for #WI08 workers. It was exciting to see firsthand the important role these men and women play in keeping our local economy moving and growing our Navy to 355 ships.

#TBT to last week's visit with the folks at Tri-Tec Manufacturing up the road in Kent in my friend @RepAdamSmith's district. I had a great time learning about how this family-owned business produces parts for our Navy's aircraft carriers as part of the @ACIBC. Good to see you!
